

TruGuard™ with Nature2® Technology  
ADVANCED MINERAL PURIFICATION

Jandy®

**BETTER WATER  
QUALITY...NATURALLY**

**TRUGUARD™**  
With Nature2 Technology

# Advanced mineral purification lets you use less chemicals while providing cleaner, clearer water.

**TruGuard™** is a mineral purifying solution used to complement the algae and bacteria fighting ability of chlorine, or any other PMRA-registered disinfectant, to help deliver cleaner, clearer more comfortable water for your pool or spa.

## Save on Chemicals

TruGuard works alongside your pool's PMRA-registered sanitization system while providing a cost-cutting alternative to heavy chlorine consumption by reducing necessary chlorine usage up to 40% in most pools.

## Superior Water Quality

The powerful minerals in TruGuard help maintain neutral pH for up to 6 months in pools. Plus, replacing your cartridge is simple, so you can experience uninterrupted indulgence of your pool.

## Enhanced Comfort

You won't feel, smell, or be affected by heavy chlorine usage.

## Lasting Effects

Lowered chemical usage prolongs the life of your pool equipment.

## Dependable and Durable

TruGuard is made of the same superior materials used to construct our Jandy® Never Lube® valves to ensure long-lasting reliability.

## Out of Sight, But Easy to See

Designed for out-of-sight installation directly plumbed into the rest of the pool pad, you won't see TruGuard, but you will see cleaner, clearer water.

## Works with Any In-Ground Pool

Compatible with most pool maintenance products\*

\*Cannot be used with biguanides nor with copper-based algacides.

## TruGuard™ Plus TruClear® or AquaPure®

### Clean Convenience

TruGuard is the perfect complement to a TruClear or AquaPure Salt Chlorinator, giving you an even more pleasant experience by making your pool water feel luxurious.

Make the most of your investment - extend the longevity of your salt system and enjoy your pool with less maintenance.
