## TC3 Flush Mount Pool/Spa Return Jet

## CAUTION

This product must be installed by a contractor who is licensed and qualified in pool equipment by the jurisdiction in which the product will be installed where such state or local requirements exists.

 After the 1½" return line is plumbed through shell and pressure tested, cut pipe flush with the pool wall.

 Use Inside Pipe Cutter (part #5-17-4) to cut pipe back 5/8" behind shell surface.

- 3. Prime pipe and fitting. With protective cap attached, glue fitting into pipe, positioning for thickness of finish material.
- After troweling the final finish, use needle-nose pliers (or ThreadCare Tool, part #4-17-4) to remove the protective cap turning clockwise until cap separates or breaks off.

5. At startup, select and insert the applicable restrictor nozzle if required for the installation.
