

WHITE LED LIGHTS

Choose the
White Light that's
Just Right

Daylight White

Warm White

White Lights Available in Daylight or Warm White Color Temperatures

Jandy® Pro Series provides two energy-efficient options with either Daylight or Warm White LED lights. Designed to last, these brilliant lights come in 120V and 12V versions, and are ETL listed (approved) for installation in Jandy as well as in most leading competitors' niches*—making them a versatile, safe, and compliant lighting solution with virtually any power supply or niche—existing or new.

Pool Control in the Palm of Your Hand

White LED Lights can be controlled anytime, anywhere with iAquaLink™. Settings can be selected from virtually any web-connected smart device.

AquaLink®/iAquaLink-compatible

- » Available in Daylight and Warm White options
- » Provides equivalent brightness to 100W, 300W and 500W incandescent lights
- » Long life, uses 65 watts of power or less, available in 120V and 12V versions
- » Corrosion resistant, stainless steel housing
- » Controlled by a single light switch or seamlessly interfaces with our iAquaLink RS controls
- » Compatible and compliant for use in all Jandy and many competitive niches*
- » Both color temperatures maintain the integrity of the LED lights as a pool safety feature.
