

# Jandy Commercial Salt Chlorinator

## A high-performance, high-efficiency saltwater chlorination system

Jandy Commercial Salt Chlorinators are made to withstand the rigors of heavy use while providing a highly efficient and reliable method of chlorine generation for high-use pools.

### Product features

- Easy to use Jandy union connections
- Backlit touchscreen control panel
- Designed to be floor-mounted to ease stress on plumbing
- Dependable switching mode power supply
- Allows external on/off control
- Programmable polarity reversal for effective electrode cleaning
- NSF-50 and UL certifications

### Product specs

- Four models delivering 3.5, 4.7, 7.0 and 8.7 pounds of chlorine production per day
- Integrated flow sensor to ensure proper flow, with alarm
- Salinity sensor to warn of low or high pool salt level
- Polarity reversal selectable to 2, 3, or 4 hours
- 2" x 2.5" Jandy unions included
- Control panel and cables included

## SPECIFICATIONS

Part Number	Production (lb/d) (@5,000ppm)	Titanium Plates	Minimum Flow (GPM)	Maximum Flow (GPM)	Voltage	Connection
JSWC40	3.5	6	65	150	120-240/50-60HZ/1ph	2" or 2 1/2"
JSWC53	4.7	7	65	150	120-240/50-60HZ/1ph	2" or 2 1/2"
JSWC80	7.0	11	90	150	120-240/50-60HZ/1ph	2" or 2 1/2"
JSWC100	8.7	13	90	150	120-240/50-60HZ/1ph	2" or 2 1/2"
